

The U.S. Department of Homeland Security
Office for Bombing Prevention

Presents

Bombing Prevention Awareness (AWR-348)

Event Purpose

The Bombing Prevention Awareness Course (BPAC) provides participants knowledge of general bombing prevention measures from improvised explosive device (IED) construction and classification through protective measures for potential bombing incidents. It enhances the participant's understanding of the IED threat and potential response picture that aids the participant in mitigating the impact of a bombing incident while considering time constraints of CI owner/operators and response personnel.

Who Should Attend?

This course is designed for public and private sector CI owner/operators interested in or required to have a basic awareness of bombing prevention measures. Public safety personnel, Emergency Managers, law enforcement, and special event security personnel can also benefit from the course.
